Experience

Designer/Co-Owner

District 7 Studios
January 2009 - Present
My own personal design studio co-
created with another designer. Under
District 7 I have made concept web-
sites using a variety of CMSes, print
work, and more. Currently, we are in
the process of developing an iPhone
utility application.

Web Master/Designer

S.T.A.R.S. Productions
January 2009 - August 2009
At S.T.A.R.S I helped maintain the com-
pany's public website and modified
different PHP forms and functions. For
bands and concerts I created many
fliers and Myspace layouts. I also main-
tained their social media presence via
Myspace, Facebook, and Twitter.

Intern

eTalentShowcase
May 2011 - January 2012
While working at this social media
start up I worked managing the
database behind the Dolphin CMS.
I was also responsible for much of
the site's artwork and designs.

Intern/Web Developer

FusionMS
February 2012 - Present
At FusionMS I create masterpages
for a variety of clients on the Share-
Point 2010 platform. I am also
responsible for many of the mock
ups and graphical work. I spear-
headed the public site's redesign, as
well. I primarily work with HTML5
and CSS3 with a heavy emphasis on
jQuery.
